

PLAYGROUPS

Playgroups provide an informal opportunity for parents, grandparents, carers and children to meet, socialise and play. The following Playgroups operate in the City of Canada Bay Council area. The Playgroup Association of NSW Inc can also provide advice and information on setting up a playgroup.

Supported playgroups offer valuable opportunities for parents to meet and share their experiences and for children to play and socialise. However, they differ in that they are coordinated by qualified community workers who give parenting tips and advice and provide information about other community services for families.
