## **Fees and Charges Pricing Policy**

Council's 2016/17 Schedule of Fees and Charges for Council services has been prepared using the following pricing criteria:

### **Public Goods**

Providing services free of charge in those circumstances where it is impossible or impractical to exclude users who do not choose to pay, e.g. roads, parks, drainage.

### **Externalities**

Discounting fees below cost where the production or consumption of the service generates external benefits to the community, e.g. protection of natural environment.

### **Merit Goods**

Discounting fees below cost where full cost recovery would prevent or discourage use of the service and the service is regarded as having particular merit to the welfare and wellbeing of the community, e.g. Library services, recreational facilities.

### **Natural Monopoly**

Where natural monopolies occur, prices will be set to a level to fully recover costs, taking into account, explicit community service obligations or equity objectives, e.g. waste collection.

### **Regulatory**

Setting prices for regulatory functions at a level where costs are fully recovered unless there are explicit community service obligations or equity objectives, e.g. health, building and development controls.

### **Commercial**

Commercial activity pricing is maximised to offset costs and provide resident concessions where appropriate, e.g. hiring Council property.

### **Full Cost Recovery**

Prices will be set to fully recover prices. E.g. road/footpath reinstatements, vehicular crossings.

### **Entrepreneurial**

Activity provided as an entrepreneurial pursuit to fully recover cost and provide additional revenue to Council.

### **GST**

City of Canada Bay unequivocally reserves the right to pass on the GST imposed on some of the goods and services provided, and where legislation is changed to remove or alter GST, council's relevant fee will be amended accordingly.

Version 1-3 state the charges of Road Restorations for non-utility applications but with the charge amount for utility applications by mistake which made the original fee undercharged for 10%. Therefore, GST status changed from YES to NO to show those charges consistence for utility applications and clarify in notes “Other private works are subject to GST”. Please refer to discussion between Mark and Stephen in October 2016.

Schools - Gymnastics - Per Instructor	\$46.25	YES
---------------------------------------	---------	-----

Due to an error, the fee charged to schools for a gymnastics instructor increased from \$45.00 to \$67.00 per hour. The correct fee is \$46.25 per hour. The oversight resulted from increasing the fee to match the fee charged to schools for a Health Club instructor. However, the cost to Council for each instructor is different and hence, should be reflected in the fees we charge to schools.
